

CONFIRMATION
for the Product Line
Tech-Masters Solder & Seal X

We hereby confirm that the product TECH-MASTERS Solder & Seal X meets the technical requirements according to the current product information sheet. Furthermore, that the product is chemically resistant to the following compounds:

- Commercially available gasolines
- Commercially available Diesel and Jet Fuel A1
- General carbon & synthetic based oils and greases
- Basic alkaline cleaners

The following shall form the basis of this confirmation:

- a. If the product was purchased directly from a Tech-Masters company or via a reseller authorized by Tech-Masters and a corresponding invoice can be presented.
- b. If the product has been stored or processed in the prescribed manner.
- c. If the product has been used for the specified materials.
- d. If the product has not been modified in any way by a third party.
- e. If the product has not been used improperly.
- f. If the packaging was not damaged at the start of use.
- g. If there is no intent or gross negligence on the part of the user.
- h. If there are no defects caused by events outside the normal use or application.
