

SAFETY DATA SHEET /according to Commission Regulation (EU) 830/2015/

Breeze Mat (Lavender)

Date of Issue: 27. 7. 2015

Date of Revision: 8. 10. 2018

Version: 4

page: 1/9

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier:

Trade name: **Breeze Mat (Lavender)**

CAS Number: Not applicable for the mixture.

Contains: Octanal, 2-(Phenylmethylene)- (Hexylcinnamaldehyde) (CAS 101-86-0) 5,25 %

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Urinal deodorizer (Lavender)

Uses advised against: For intended use only. Do not use with food or beverage. Not for oral consumption.

1.3 Details of the supplier of the safety data sheet:

Manufacturer/supplier:

TECHNIQUA HANDELS GmbH

Hartleitnerstraße 3

A-4653 Eberstallzell

Tel: +43 (0) 7241 213 79

E-Mail: office@techniqua.at

1.4 Emergency telephone number:

Poisoning Information Centre (VIZ), Stubenring 6, A-1010 Vienna, Emergency call

0-24 hrs: +43 1 406 43 43, Office hours: Monday to Friday, 8 to 16 hrs, Tel.: +43 1 406 68 98

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture:

The mixture does meet the criteria for classification in accordance with Regulation (EC) No 1272/2008. The mixture is classified as dangerous in accordance with Regulation (EC) No 1272/2008, as subsequently amended.

Hazard class and category:

Skin Irrit. 2, H315

Skin Sens. 1, H317

Hazard statements:

Causes skin irritation. May cause an allergic skin reaction.

The most important adverse physical effects:

The mixture is not flammable, is combustible. Thermal decomposition under high temperatures or burning may release a variety of products from simple hydrocarbons to toxic/irritating gases including carbon monoxide and carbon dioxide. Prevent from heating or burning.

The most important adverse human health effects:

The mixture contains some chemicals which may cause allergic skin reaction (redness, dermatitis). Sensitive people should avoid the contact with the mixture. The mixture, which is the product impregnated by, contains some substances irritating to skin, in the used form they does not mean any important hazard. During long lasting inhalation can cause headache. Avoid long lasting inhalation exposure. Keep carefully the instructions for use.

The most important adverse environmental effects:

The mixture contains small amount of chemicals, which are classified as hazardous to aquatic life. Used form of the product does not constitute any practical risks to the environment. Keep the users' instructions to protect aquatic environment.

Full text of the classification and hazard statements is given in the section 16.

SAFETY DATA SHEET /according to Commission Regulation (EU) 830/2015/**Breeze Mat (Lavender)**

Date of Issue: 27. 7. 2015

Date of Revision: 8. 10. 2018

Version: 4

page: 2/9

2.2

Label elements

Signal word: Warning

Pictograms: GHS07

Hazard statements:

H315 Causes skin irritation.**H317** May cause an allergic skin reaction.

Precautionary statements:

P102: Keep out of reach of children.**P264:** Wash hands thoroughly after handling.**P333 + P313:** If skin irritation or rash occurs: Get medical attention.**P501:** Dispose of contents in accordance with local/national regulation.

Supplemental information on the label:

Dangerous components: Octanal, 2-(Phenylmethylene)- (Hexylcinnamaldehyde) (CAS 101-86-0) 5,25 %
 Contains Linalool; Linalyl acetate; 2-(4-Tert.butylbenzyl) propionaldehyde; Coumarin; Eukalyptol (Cineole); Tetrahydrolinalool; Lauraldehyde; Dipentene Limonene; (1R)-(+)- α -Pinene. May produce an allergic reaction.

Restricted to professional users.

Product identifier: **Breeze Mat (Lavender)** Urinal deodorizer

2.3

Other hazards:

The mixture does not meet the criteria for PBT or vPvB components, any is not enrolled in the candidate list for the Annex XIV of the Regulation (EC) No. 1907/2006.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances: The product is not a substance.

3.2 Mixtures

Solid plastic slow-release deodorizing preparation in the form of a moulded urinal screen. It is made of pigmented thermoplastic impregnated with a fragrance composition and colour to represent the fragrance.

Form/Shape: Screen weighs approximately 63g in the form of a circle with open slots and protrusions (7" diameter approximately).

* The compound is not classified in the List of harmonized classification. For the classification were used data from databases and SDSs.

SECTION 4: FIRST AID MEASURES**4.1 Description of first aid measures:**

In any health complication or in case of doubts, seek medical advice. Show this safety data sheet or the label to the doctor. In case of health problems, do basic life support. Keep unconscious person in recovery position, give nothing by mouth. Do not induce vomiting. In case of spontaneous vomiting avoid vomit aspiration.

Inhalation:

In relation to the product form, inhalation exposure is improbable. Remove the affected person to fresh air and keep warm and at rest. If breathing difficulties occur (lack of oxygen, irregular breathing), apply artificial respiration. In case of long-lasting breathing problems seek medical advice.

Skin contact:

Wash thoroughly by water and soap. If skin irritation or allergic reaction occurs, seek medical advice.

Eye contact:

Eye contact is improbable. Remove contact lenses, if present and easy to do. Rinse wide open eyes with plenty of water, from inner canthus to the outer, mainly the space under eyelids.

Ingestion:

Possibility of ingestion limited due to product form and difficulty to chew and ingest. In the event of ingestion, do not induce vomiting, rinse mouth thoroughly with water. Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed

The mixture contains some chemicals which may cause allergic skin reaction (redness, dermatitis). Sensitive people should avoid the contact with the mixture. The mixture, which is the product impregnated by, contains some substances irritating to skin, in the used form they does not mean any important hazard. During long lasting inhalation can cause headache.

4.3 Indication of any immediate medical attention and special treatment needed

In case of usual usage and if following the instructions for use no health hazards occur, immediate medical treatment is not necessary. Treat symptomatically.

SECTION 5: FIREFIGHTING MEASURES

- 5.1 Extinguishing media
Suitable extinguishing media: The mixture is not flammable. Use extinguishing media appropriate for the surrounding fire (dry powder, CO₂, foam, water spray, mist).
Unsuitable extinguishing media: None
- 5.2 Special hazards arising from the substance or mixture:
Thermal decomposition under high temperatures or burning may release a variety of products from simple hydrocarbons to toxic/irritating gases including carbon monoxide and carbon dioxide. Do not breathe the decomposition products in.
- 5.3 Advice for firefighters:
Full protective clothing should be worn before a confined fire space is entered. Self-contained breathing apparatus should be worn.
Other information:
Control run-off water by containing and keeping it out of watercourses.

SECTION 6: ACCIDENTAL RELEASE MEASURES

- 6.1 Personal precautions, protective equipment and emergency procedures
No special requirements in case of accidental release. Keep usual safety requirements, avoid contact with skin.
- 6.2 Environmental precautions
Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. The fragrance mixture is not washed into water from the product. Avoid or minimise the creation of environmental contamination. Keep usual requirements to protect the environment.
- 6.3 Methods and material for containment and cleaning up
In relation to the product form the release is improbable. Prevent from releasing the unused product into the environment.
- 6.4 Reference to other sections:
Personal protective equipment – section 8. Unused mixture treatment – section 13.

SECTION 7: HANDLING AND STORAGE

- 7.1 Precautions for safe handling:
Keep away from direct flames, open fire and heating. Avoid contact with skin and eyes, use personal protective equipment. Respect the instructions in the label. Do not eat, drink and smoke in working area. Wash hands with soap and water after use and before break or eating. Keep general hygiene measures for handling.
- 7.2 Conditions for safe storage, including any incompatibilities:
Keep in cool, dry conditions in original containers at no more than 30° C.
Keep out of the reach of children. Store apart from food, beverages and feed.
Keep the user's instruction.
Quantity limits under storage conditions: not given
- 7.3 Specific end use(s): Urinal deodorizer.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

- 8.1 Control parameters:

Substance	Longterm [mg/m ³]	Short term [mg/m ³]
Diphenyl ether (vapour) (CAS 101-84-8)	7	14
Camphor (CAS 76-22-2) (GB limit)	13	19

- 8.2 Exposure controls:
Avoid contact with skin and eyes. Respect the instructions in the label. Do not eat, drink and smoke in working area. Keep general hygiene measures for handling. After skin contact wash thoroughly. Adjust personal protective equipment to the character of the work.
- Eye/face protection:
Eye contact is improbable, eye protection is not necessary.

- Skin protection:
Avoid long-lasting skin contact. Wash affected skin thoroughly.
- Hand protection:
Protective gloves are recommended for contact with skin for sensitive people. – Follow the producer's recommendation. Material should be resistant to the substances of the mixture. Test before the first use. Change damaged gloves.
Sensitive people and allergic person should avoid skin contact with the product.
- Respiratory protection:
Not needed.
- Thermal hazards:
Not defined.

Environmental exposure controls
Keep usual requirements to protect the environment.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance:	Thermoplastic urinal screen infused with fragrance oil
Colour:	Purple
Odour:	Lavender
pH:	Not determined
Melting point/freezing point:	Cca 60 °C
Initial boiling point and boiling range:	Not determined
Flash point:	Not applied
Evaporation rate:	Not determined
Flammability (solid, gas):	The mixture is not flammable
Upper/lower flammability or explosive limits:	Upper (% vol.): The mixture is not explosive. Lower limit (% vol.): --
Vapour pressure (at 20 °C):	Not determined/applicable
Vapour density:	Not determined/applicable
Relative density (at 20 °C):	Not determined
Solubility:	In water – insoluble In fat – not determined
Partition coefficient <i>n</i> -octanol/water:	Not determined
Auto-ignition temperature:	The mixture is not flammable
Viscosity (kinematic 40 °C):	Not determined
Oxidising properties:	Intact

9.2 Other information: None

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity:

If the user's instructions are followed, there is no risk of dangerous reactions.

10.2 Chemical stability:

The mixture is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

10.3 Possibility of hazardous reactions:

Following recommended use directions there are no hazardous reactions.

10.4 Conditions to avoid:

Very high temperatures, open flames, contact with incompatible materials.

10.5 Incompatible materials:

Strong oxidizing agents. Avoid contact with usual household chemicals.

10.6 Hazardous decomposition products:

No decompositions under usual conditions. Thermal decomposition under high temperatures or burning

may release a variety of products from simple hydrocarbons to toxic/irritating gases including carbon monoxide and carbon dioxide.

Other information: None

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

The mixture includes a small quantity of volatile fragrance chemicals which may contain small amounts of substances that can cause an allergic reaction, are harmful if swallowed, irritating to skin. In relation of the product form it constitutes any risk for human health.

Acute toxicity:

The mixture is not classified as acute toxic by any way of exposure.

Skin corrosion/irritation:

The mixture is classified as irritating to skin, category 2.

Serious eye damage/irritation:

Based on available data, the classification criteria are not met.

Respiratory or skin sensitisation:

The mixture is classified as sensitising to skin, category 1. May cause an allergic skin reaction.

Germ cell mutagenicity:

Based on available data, the classification criteria are not met.

Carcinogenicity:

Based on available data, the classification criteria are not met.

Reproductive toxicity:

Based on available data, the classification criteria are not met.

Specific target organ toxicity – single exposure:

Based on available data, the classification criteria are not met.

Specific target organ toxicity – repeated exposure:

Based on available data, the classification criteria are not met.

Aspiration hazard:

Based on available data, the classification criteria are not met.

Other information: Experience at human:

The mixture contains some chemicals which may cause sensitising or allergic skin reaction (redness, dermatitis). Sensitive people should avoid the contact with the mixture. The mixture, which is the product impregnated by, contains some substances irritating to skin (redness, itching), in the used form they does not mean any hazard. During long lasting inhalation can cause headache.

SECTION 12: ECOLOGICAL INFORMATION

No specific information has been established regarding the product.

12.1	Toxicity	The impregnating mixture contains substances which are classified as harmful to aquatic organisms. The product is not classified cause of the physical state, article 9, paragraph 5 of Regulation (EC) No. 1272/2008. The leakage is improbable.
12.2	Persistence and degradability	Not determined/applicable
12.3	Bioaccumulative potential	Not determined/applicable
12.4	Mobility in soil	Not determined/applicable
12.5	Results of PBT and vPvB assessment	The mixture does not contain PBT and vPvB compounds.
12.6	Other adverse effects	Prevent leakage of larger amount of the mixture. Avoid entering the drains, soil and surface water or groundwater.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Dispose in accordance with Local Authority requirements e.g., for used product, as household waste.

Container treatment: Dispose in accordance with national regulations, in the system of separated or communal waste.

SECTION 14: TRANSPORT INFORMATION

Basic information for transport:

Transport in appropriate containers. Comply with the prescribed labelling.

The transport of the mixture is not regulated after ADR, RID, ICAI/IATA, IMDG.

- 14.1 UN number Not determined
- 14.2 UN proper shipping name Not determined
- 14.3 Transport hazard class(es) Not determined
- 14.4 Packing group Not determined
- 14.5 Environmental hazards Not determined
- 14.6 Special precautions for user Not determined
- 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code Not determined.

SECTION 15: REGULATORY INFORMATION

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

- Regulation (EC) No. 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No. 1907/2006 (CLP) and amendments.
- Regulation (EC) No. 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and amendments.
- Commission regulation (EU) 2015/830 amending Regulation (EC) No. 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and amendments.

Notice:

Regulations listed above are only basic directives in this safety data sheet. Other additional regulations, which can add these above, may exist. We do refer to state, local and international laws and directions which may differ according to the country.

- 15.2 Chemical safety assessment
Chemical safety assessment has not been carried out for this mixture.

SECTION 16: OTHER INFORMATION

Hazard statements used in this safety data sheet:

H226 Flammable liquid and vapour.
H301+H311+H331 Toxic if swallowed, in contact with skin or if inhaled.
H302+H332 Harmful if swallowed or if inhaled.
H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H319 Causes serious eye irritation.
H335 May cause respiratory irritation.
H361 Suspected of damaging fertility or the unborn child.
H371 May cause damage to organs.
H400 Very toxic to aquatic life.
H410 Very toxic to aquatic life with long lasting effects.
H411 Toxic to aquatic life with long lasting effects.
H412 Harmful to aquatic life with long lasting effects.

Abbreviations used in this safety data sheet:

Flam. Liq. 3 – Flammable liquids, category 3
Acute Tox. 3, resp. 4 – Acute toxicity, category 3, resp. 4
Skin Irrit. 2 – Skin corrosion/irritation, category 2
Skin Sens. 1 – Respiratory/skin sensitisation, category 1
Eye Irrit. 2 – Serious damage to eyes/eye irritation, category 2
Repr. 2 – Reproductive toxicity
STOT SE 2 – Specific target organ toxicity, category 2
Aquatic Acute 1 – Acute aquatic hazard, category 1
Aquatic Chronic 1, 2, 3 – Long-term aquatic hazard, category 1, 2, 3
PBT – persistent, bioaccumulative and toxic
vPvB – very persistent and very bioaccumulative
LD₅₀ – Lethal dose, 50 percent
ADR – Agreement on Dangerous Goods by Road – Europe

SAFETY DATA SHEET /according to Commission Regulation (EU) 830/2015/

Breeze Mat (Lavender)

Date of Issue: 27. 7. 2015

Date of Revision: 8. 10. 2018

Version: 4

page: 9/9

The mixture should be used only for the purpose defined in 1.2. Specific end uses are out of the supplier control, the user is responsible to fit the information from this safety data sheet to local directives and regulations. Safety data sheet describes the product from the point of safety. This information is not the technical information about the product.

Instructions for training and other measures:

Provide adequate information, instruction and training for operators.

Sources of information: Supplier's data and toxicological databases.

Revision changes: Change of classification of the substance Linalool (harmonized classification), Linalyl acetate and Tetrahydrolinalool. The substances were added to section 2.2 and to the label.

Declaration:

This safety data sheet contains information believed to be correct. It should be used only as a guide. It does not represent any guarantee of the properties of the product. Our company and its affiliates shall not be liable for any damage resulting from handling or from contact with the above product. User is responsible for handling according to existing laws and regulations.

This safety data sheet meets the requirements the actual standards OSHA Hazard Communication Standard (HCS) and European legal regulations. The mixture is classified according to the criteria given in the Annex I of the Regulation (EC) No. 1272/2008.
