

TTA

UNIQUE LUBRICATING AGENT FOR METALWORK

- For all kinds of metalwork such as cutting, drilling, tapping and milling.
- Lubricating and cooling action.
- Prevents tools from seizing, increasing their life.
- Prevents drill shattering.
- Economical to use.
- Stays where sprayed.
- Jet spray nozzle to reach difficult areas.

NOTICE

All information including images are given with the greatest care. Still, it is appropriate to users regardless of the test the suitability of each product for their own purposes. Novatio is not liable for the completeness and accuracy of information and refuses warranty for your specific use. The guarantee, which Novatio products provide, relates only to the standard conditions of sale of this product. In no case Novatio can be held responsible for incidental damages, or damages for improper use or sale of the product to another customer.

TIP TAP

GENERAL INFORMATION

TIP TAP is a specially developed cutting liquid for every form of metalworking such as tapping, wire cutting, drilling, sawing, milling, etc. Controlled lubrication and practically immediate cooling increase the life span of tools and improve the processing result.
 TIP TAP is a universal product, for use both to process the hardest anti-rusting steel such as stainless steel, etc. as well as softer metals such as aluminium, brass or copper.

TIP TAP is economical to use, does not drip and does not flow away, even when applied to curved surfaces. There is no loss due to spillage, dripping or evaporation.

TIP TAP cools and lubricates.

Technical Information

Appearance: aerosol.
 Base: mineral oils and additives.
 Colour: clear, light yellow.
 Flashpoint of active agent: 180°C.
 Density: 0.8 +/- 0.1 kg/dm³.

Flammability: very easily flammable.
 Shelf life: 36 months, keep dry, cool and frost-proof.
 Safety measures: consult the Safety Data Sheet.

APPLICATION AND USE

- sawing metal: just spray along the cutting edge
- drilling into metal: spray directly onto the position being drilled
