WELD WIPES

PICKLING SOLUTION FOR STAINLESS STEEL

- Especially suitable for pickling TIG / MIG / electrode austenitic stainless steel welds.
- Ready to use.

GENERAL INFORMATION

WELD WIPES are soaked in pickling solution for stainless steel specification. It is ready to use. WELD WIPES are especially suitable for pickling TIG / MIG / electrode austenitic stainless steel welds. After use, the clean area should be treated with the WELD NEUTRO, in order to neutralize and remove product residue.

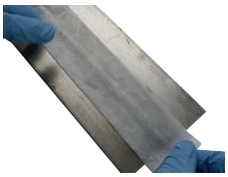

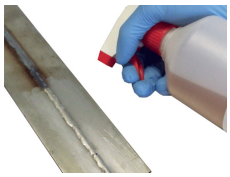

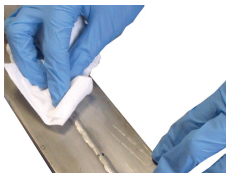

TECHNICAL INFORMATION

Color: colorless
Odor: strong
Physical state: wipe soaked liquid
pH of liquid solution: 1
Storage: Keep the product in a safe place and in the original container.
Do not mix it with other products.
Shelf life: 2 years
Once the package is opened the wipes have a duration of 4 months.

APPLICATION AND USE

- Apply the wipe along the weld, ensuring it adheres to the surface. Leave on for at least 10/15 minutes (depends of outside temperature and the quality of the weld).
- Remove the WELD WIPES. Spray WELD NEUTRO on the worked surface to neutralize the acid residues.
- Dry with blotting paper and close the Weld Wipes blister with the cover.
