POWERFUL CLEANING PASTE FOR CARE & PROTECTION

- Powerful cleaning
- Cleans, polishes and protects in one step
- Versatile use
- HACCP-compliant
- Non-toxic
- 100% biodegradable
- High output

ECO PASTE

General Information

ECO PASTE is caring and protective at the same time. The universally applicable ECO PASTE cleans even the most stubborn encrustations effortlessly. The combination of soap and polishing particles makes the product so effective in use. The cleaning power

of the soap and the mechanical effect of the polishing particles complement each other perfectly. The regreasing property of ECO PASTE helps to protect the surfaces temporarily. The resulting beading effect reduces the rapid resoiling of the treated surfaces.

Technical Information

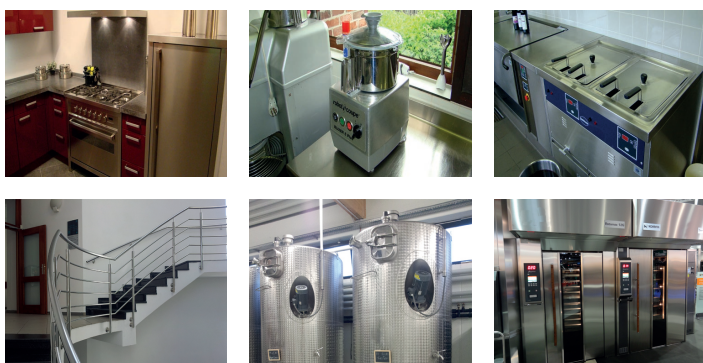

Physical state: Solid
 Colour: white
 Appearance: soap
 pH-value: 10
 pH solution: 1%
 Density: 1,7 g/ml
 VOC: < 1%
 Ingredients (INCI designation): Alumina, Aqua, Glycol, Fatty acid soap/sodium, Stearic Acid Sodium Salt, Brassica Campestris Oleifera Oil, D-Limonene

Storage conditions: Store in a well-ventilated place. Keep container tightly closed.
 Storage temperature: 15°C - 30°C
 Heat or ignition sources: Does not present a particular fire or explosion hazard.
 Information about storage in one common storage facility: Keep away from (strong) acids. Keep away from oxidising agents.
 Shelf life: 36 months when stored properly

Application and Use

- APPLICATION:
 - Can be used on all water-resistant surfaces in the household: enamel, tiles, plastic, silver, gold, bronze, brass, copper, stainless steel, chrome, glass ceramics and much more.
 - A pleasant lemon scent underlines the feeling of freshness and cleanliness.
- USE:
 - Rub ECO PASTE with a wet, commercially available sponge.
 - Work the surface to be cleaned with gentle pressure, then rinse with clear water and finally polish with a soft cloth.
 - Do not use on painted or lacquered surfaces.
 - In case of doubt, try it on a small surface first.
