

CPW

THE RENEWER FOR SYNTHETIC MATERIALS

- Cleans, polishes and protects in just one action
- Can be used on all synthetic and plastic parts
- Very economical in use due to long lasting protective effect
- Prevents rapid recontamination of treated surfaces
- Restores the original look and colour especially on weathered parts
- Creates a high-quality semi-gloss shine for a long time period
- Contains no solvents, thus no haze is formed
- Contains silicones (less than 2% in solid form)
- Leaves no white stains on the treated material

CARE & PROTECT LIQUID WIPES

General Information

Cleaning, polishing and protecting can easily be done in just one action with CARE & PROTECT LIQUID WIPES. The special formula renews the look of all synthetic and plastic parts, indoors and outdoors. Especially on weathered parts, the original colour and appearance will be restored with CARE & PROTECT LIQUID WIPES.

CARE & PROTECT LIQUID WIPES prevents the rapid recontamination of the treated areas. Due to its long lasting protective effect, CARE & PROTECT LIQUID WIPES is very economical in use. The product is safe for all users as it does not contain any solvents, thus no vapours are released.

Technical Information

Form: liquid in multitex wipe
 Color: blue multitex wipe soaked with light purple liquid
 Odor: fruity
 pH value (at 20°C): approx. 7
 Initial boiling point: 100°C
 Vapour pressure (at 20°C): 23 hPa

Density (at 20°C): approx. 1.01g/cm³
 Miscibility in water: fully miscible
 Shelf life/storage: 2 years/frost-free at 5°C - 35°C.
 Ideally store in a cool place up to 20°C. Close again after use.

Application and Use

- **APPLICATION:**
 - CARE & PROTECT LIQUID WIPES have been specially developed for the cleaning and care of plastic parts in the interior of all types of vehicles. The wipes can also be used outdoors, but have less long-term resistance there than products specially developed for this purpose.
 - Do not use on pedals and steering wheels - danger of slipping (contains silicone emulsion)!
 - Very suitable on plastic furniture, plastic fittings, plastic frames, etc.
- **USE:**
 - Pull a CARE & PROTECT LIQUID WIPE from the bucket and tear off at the perforation. Remove the contamination by wiping, leaving a silky sheen on the treated surface. If necessary, repolish with a soft wipe.
