#### PERMANENT BONDING TAPE FOR MULTI-PURPOSE USE

- 100% acrylic adhesive
- Provides high tack
- Suitable for various materials such as metal, wood, glass,...
- Excellent resistance to all external influences
- Can be used for interior and exterior applications

#### **General Information**

POWER FIX is especially designed for permanent bonding in interior and exterior applications. POWER FIX shows excellent resistance against humidity, UV-rays, chemicals and temperatures up to 90°C. POWER FIX can replace riveting, welding, liquid glues

### **Technical Information**

Thickness: 1,00 mm Adhesive strength: 29 N/25 mm Sevice temperature range: -40°C to +93°C Short term temperature: +150°C Solvent resistance: Good Chemical resistance: Excellent UV resistance: Excellent Humidity resistance: Excellent

#### **Application and Use**

• APPLICATIONS:

- Fixing automotive exterior trims, bodyside moldings, rear view mirrors, ...
- Signage industry (mounting of nameplates, emblems, logos, badges, panels, ...)
- Electronic displays.
- Mounting of decorative material and trims.
- Fixing panel to frame and stiffener to panel.
- Window and door assembly.
- Interior and exterior use.

#### and other permanent fasteners. POWER FIX has high tack properties and is suitable for various kinds of materials such as metal, wood, glass, plastics and many more.

Dynamic shear: 5 kg/cm<sup>2</sup> Static shear: 1000g/3,23cm<sup>2</sup> for 7 days at 23°C; 500g/3,23cm<sup>3</sup> for 7 days at 93°C Storage: Clean and dry in a well ventilated area, preferably at a temperature between +10°C and +30°C. Stored under these conditions shelf life will be a minimum of 24 months.

RECOMMENDATIONS FOR USE:

 The temperature should be between +15°C and +30°C. Before applying POWER FIX the surface must be clean and free from dust and grease. Therefore you can use MEGA FOAM or FAST CLEAN. POWER FIX must be applied with a maximum of pressure in order to achieve maximum pressure level. The indicated level of performance will be reached after a bonding period of 24HRS at +23°C.
