

OIL

LINT AND DUST-FREE OIL ABSORBING TISSUE

- Suitable for absorption of water-insoluble soiling, such as oil, fuels, chemicals, emulsions, etc.
- Floatable - ideal for oil-water separation
- Heat resistant (up to 160°C)
- Lint and dust free
- Environmentally friendly

OIL TISSUE

General Information

OIL TISSUE oil absorption tissues are suitable for dust-free absorption of heavy and light oils, fuels and other chemicals and many non-water-soluble substances. The environmentally friendly non-woven material can absorb a multiple of its own weight, is heat resistant and fully floatable.

Whether drilling emulsions, cooling water or even contaminated liquids - OIL TISSUE absorbs everything. Oily and aqueous substances are bound simultaneously and equally well. Furthermore, OIL TISSUE is suitable for cleaning machines and tools.

Technical Information

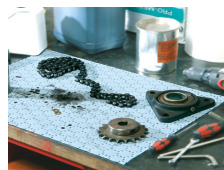

Colour: blue
 Odour: none
 Flash point: 240°C
 Ignition temperature: 430°C
 Heat resistancy: up to 160°C

Absorbing capacity (acc. EDENA standard):
 720ml/tissue
 Measures: 40 x 40cm
 Disposal: The disposal must be carried out in compliance with the official regulations concerning the absorbed liquids!

Application and Use

- Ideal for maintenance workshops and machine rooms
- For cleaning tools and machines
- Absorbs spilled materials
- Cleans floors and machines in workshops
- Organic solvents, engine oils, hydraulic oils, gear oils, diesel, petroleum, kerosene etc. can be separated from the water with OIL TISSUE
- Ideal for the chemical industry, oil industry and in all workshops where oils can occur
