

## OSA

### THE POWERFUL AIR SHOT

- High quality air atomizer for cleaning components and surfaces
- Powerful air release due to high pressure (approx. 8 bar)
- Freezing temperature up to -60°C when used upside down
- Removes dust and dirt from hardly reachable areas
- Does not leave any residues on treated surface
- Very economical in use!

## ONE SHOT AIR

### General Information

With ONE SHOT AIR dust and dirt belong to the past. This high quality air atomizer allows you to remove even the smallest particles from parts, components and surfaces.

Due to its high pressure with approx. 8 bar, ONE SHOT AIR also cleans and dries hardly reachable areas effectively.

When used upside down, ONE SHOT AIR has a freezing capacity of up to -60°C and offers you best performance for adjustments and assembly work. Experience the wide range of applications and make your daily work easier!

### Technical Information

Purity: 99,95%  
 Pressure: 8 bar/ 20°  
 Cooling: up to -60°

Productivity: up to 100 l/ uncompressed  
 Shelf life: 12 month  
 Safety measures: Consult the Safety Data Sheet

### Application and Use

- APPLICATIONS:
  - Makes (de-)mounting of pins, bolts, nuts, etc. easier by cold-shrinking them
  - Ideal for safely de-dusting, cleaning and drying damagable parts like circuit boards and other electronic components and devices
  - Quick tracing of defects on temperature sensors, heat regulators, thermostats by cooling effect control
  - Effectively cleans and de-dusts computers, keyboards, lenses, cameras, smoke detectors, fans and many more
  - Can be used for removing gum from leather, carpets, furniture, clothing, ... - Please test the product on textiles before general use!
- USE:
  - Before use, shake the can well for some minutes
  - You can either spray normal or upside down depending on the desired effect
  - Normal spraying = regular cleaning, de-dusting and drying
  - Upside down spraying = freezing effect
  - Spray the product from a distance of 20-25 cm onto the area to be treated
  - The temperature depends on the spraying time, you can reach up to -60°C
