Safe Clean 500ml

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

**1.1. Product identifier** Trade name/designation:

Safe Clean 500ml

Article No.: T204001 UFI: 529D-17GA-8H0A-4UPR

#### **1.2. Relevant identified uses of the substance or mixture and uses advised against** Use of the substance/mixture:

Surface cleaner

### 1.3. Details of the supplier of the safety data sheet

#### Supplier:

KANDO Service GmbH Hartleitnerstraße 3 4653 Eberstalzell Austria Telephone: +43 (0) 7241 213 79 E-mail: msds@kando.eu

### 1.4. Emergency telephone number

Vergiftungsinformationszentrale (VIZ), Stubenring 6, 1010 Wien, 24h: 01 406 43 43, Montag - Freitag: 8 bis 16 Uhr, Tel.: 01 406 68 98 (keine medizinische Auskunft) (Only available during office hours.)

# **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

### Classification according to Regulation (EC) No 1272/2008 [CLP]

Hazard classes and hazard categories	Hazard statements	Classification procedure
aerosol dispensers and lighters (Aerosol 1)	H222; H229: Extremely flammable aerosol. Pressurised container: May burst if heated.	
Serious eye damage/eye irritation (Eye Irrit. 2)	H319: Causes serious eye irritation.	
STOT-single exposure (STOT SE 3)	H336: May cause drowsiness or dizziness.	

### 2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms:

according to Regulation (EC) No. 1907/2006 (REACH), (EU) 2020/878

Revision date: 30 Jan 2025 Print date: 30 Jan 2025 Version: 4

Page 2/15

# Safe Clean 500ml

#### Hazard components for labelling:

Hydrocarbons, C9-C11, n-alkanes, iso-alkanes, <2% aromatics; propan-2-ol

Hazard statements for physical hazards		
H222	H222 Extremely flammable aerosol.	
H229	H229 Pressurised container: May burst if heated.	
Hazard statements for health hazards		

	· · · · · · · · · · · · · · · · · · ·
H319	Causes serious eye irritation.
H336	May cause drowsiness or dizziness.

#### Supplemental hazard information

EUH066 Repeated exposure may cause skin dryness or cracking.

Precautionary statements Prevention		
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	
P211	Do not spray on an open flame or other ignition source.	
P251	Do not pierce or burn, even after use.	
P260	Do not breathe mist/vapours/spray.	
P271	Use only outdoors or in a well-ventilated area.	
P280	Wear protective gloves and eye protection/face protection.	

#### **Precautionary statements Response**

- 1			
	P304 + P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.	
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if pre and easy to do. Continue rinsing.			

#### Precautionary statements Storage

P403	Store in a well-ventilated place.	
P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.	

#### Precautionary statements Disposal P501 Dispose of conten

Dispose of contents/container to an appropriate recycling or disposal facility.

### 2.3. Other hazards

#### Other adverse effects:

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

## **SECTION 3: Composition/information on ingredients**

#### \* 3.2. Mixtures

#### **Description:**

Active ingredient mixture with propellant gas

#### Additional information:

Aerosols and containers fitted with a solid nebuliser containing substances or mixtures classified as hazardous by aspiration must not be labelled for this hazard.

#### Hazardous ingredients / Hazardous impurities / Stabilisers:

Product identifiers	Substance name Classification according to Regulation (EC) No 1272/2008 [CLP]	Concentration

#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

#### Following inhalation:

Fresh air supply, consult a doctor in case of complaints.

#### In case of skin contact:

In general, the product is not irritating to skin.

#### After eye contact:

Rinse opened eye for several minutes under running water. Consult a doctor if symptoms persist **Following ingestion:** 

Do not induce vomiting, seek medical help immediately.

#### **4.2. Most important symptoms and effects, both acute and delayed** No further relevant information available.

#### **4.3. Indication of any immediate medical attention and special treatment needed** No further relevant information available.

### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media:

Water mist, Extinguishing powder, Carbon dioxide (CO2), alcohol resistant foam

#### Unsuitable extinguishing media:

Water in full jet

### 5.2. Special hazards arising from the substance or mixture

No further relevant information available.

according to Regulation (EC) No. 1907/2006 (REACH), (EU) 2020/878

Revision date: 30 Jan 2025 Print date: 30 Jan 2025 Version: 4

Page 4/15

Safe Clean 500ml

#### 5.3. Advice for firefighters

Special protective equipment: Put on breathing apparatus.

### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

#### 6.1.1. For non-emergency personnel

#### **Personal precautions:**

Wear protective equipment. Keep unprotected persons away.

#### 6.1.2. For emergency responders

No data available

#### 6.2. Environmental precautions

Do not allow to enter into surface water or drains. In case of spillage into water or sewage system, inform the competent authorities.

#### 6.3. Methods and material for containment and cleaning up

#### For cleaning up:

Do not wash away with water or aqueous detergents.

#### Other information:

Provide adequate ventilation.

#### 6.4. Reference to other sections

Further information on proper storage: see section 7. For further information on personal protective equipment: see section 8. For further information on disposal: see section 13.

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

#### **Protective measures**

#### Advices on safe handling:

Ensure good ventilation/extraction at the workplace.

#### Fire prevent measures:

Do not spray on naked flames or any incandescent material. Keep away from sources of ignition - No smoking. Take precautionary measures against static discharges. Container is under pressure. Protect from sunlight and temperatures above 50°C (e.g. from incandescent lamps). Do not open by force or burn even after use.

### 7.2. Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels:

Store in a cool place. The official regulations for the storage of pressurised gas packages must be observed.

#### Hints on storage assembly:

The official regulations for the storage of pressurised gas packages must be observed.

Storage class (TRGS 510, Germany): 2B - Aerosol dispensers and lighters

#### Further information on storage conditions:

Store in a cool, dry place in well-sealed containers. Protect from heat and direct sunlight.

#### **7.3. Specific end use(s)**

#### **Recommendation:**

No further relevant information available.

according to Regulation (EC) No. 1907/2006 (REACH), (EU) 2020/878 Revision date: 30 Jan 2025 Print date: 30 Jan 2025

### 8.2. Exposure controls

### 8.2.1. Appropriate engineering controls

No further details. See section 7.

#### 8.2.2. Personal protection equipment

### Eye/face protection:

Safety goggles (EN-166)

### Skin protection:

Hand protection:

The glove material must be impermeable and resistant to the product/the substance/the preparation. Due to the lack of tests, no recommendation can be made on the glove material for the product/preparation/ mixture of chemicals. mixture of chemicals. Selection of glove material considering breakthrough times, permeation rates and degradation.

Wear gloves for protection against chemicals according to EN 374.

Gloves / solvent resistant

Breakthrough times and swelling properties of the material must be taken into consideration. Glove material:

The selection of a suitable glove depends not only on the material but also on other quality features and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of glove materials cannot be calculated in advance and must therefore be checked before use. NBR (Nitrile rubber)

Recommended material thickness:  $\geq$  0,5 mm

Permeation time (maximum wear duration):

For continuous contact we recommend gloves with a breakthrough time of at least 240 minutes, with the preference for a breakthrough time greater than 480 minutes. For short term or splash protection we recommend the same. We are aware that suitable gloves offering this protection are not available. In this case, a shorter breakthrough time is permissible, provided the procedures for maintenance and timely replacement are followed. The thickness of the gloves is not a good measure of the resistance the gloves give against a chemical substance, as this depends on the exact composition of the material of the gloves. The exact breakthrough time should be checked with the glove manufacturer and adhered to. Body protection:

Use protective suit. (EN-13034/6)

Antistatic, chemical and oil resistant clothing and safety shoes are recommended. (EN1149; EN340&EN ISO 13688 EN13034-6).

#### **Respiratory protection:**

In case of inadequate ventilation wear respiratory protection. Filter A2/P2

according to Regulation (EC) No. 1907/2006 (REACH), (EU) 2020/878

Revision date: 30 Jan 2025 Print date: 30 Jan 2025 Version: 4

Page 8/15

Safe Clean 500ml

#### **Other protection measures:**

General protective and hygienic measures: Keep away from food, drink and animal feed. Wash hands before breaks and after work. Do not inhale gases/vapours/aerosols. General ventilation.

#### 8.2.3. Environmental exposure controls

Use a suitable container to prevent environmental pollution.

#### **SECTION 9: Physical and chemical properties**

#### \* 9.1. Information on basic physical and chemical properties

#### Appearance

Form: Aerosol

Odour: characteristic

**Colour:** According to product designation **flammability:** No data available

#### Safety relevant basis data

Parameter	Value	at °C	① Method
			② Remark
рН	not applicable		② Mixture is not polar/aprotic.
Initial boiling point and boiling range	82 °C		② propan-2-ol
Flash point	13 °C		
Evaporation rate	No data available		
Auto-ignition temperature	270 °C		
Upper/lower flammability or explosive limits	0.6 - 12 Vol-%		
Vapour pressure	1 hPa	20 °C	
Density	0.79 g/cm <sup>3</sup>	20 °C	
Water solubility			② Not miscible or only slightly miscible.

#### \* 9.2. Other information

The product is not self-igniting. The product is not explosive, but the formation of explosive vapour/air mixtures is possible. formation of explosive vapour/air mixtures is possible.

#### 9.2.1. Information with regard to physical hazard classes

**Explosives:** Not applicable Flammable gases: Not applicable Aerosols: Extremely flammable aerosol. Pressurized container: May burst if heated. **Oxidizing gases:** Not applicable Gases under pressure: Not applicable Flammable liquids: Not applicable Flammable solids: Not applicable Self-reactive substances and mixtures: Not applicable **Pyrophoric liquids:** Not applicable **Pyrophoric solids:** Not applicable

#### Self-heating substances and mixtures: Not applicable

# **SECTION 15: Regulatory information**

# 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### 15.1.1. EU legislation

#### Authorisations:

Directive 2012/18/EU

Named dangerous substances - ANNEX I: None of the ingredients are included.

### **Restrictions on use:**

Regulation (EC) No 1907/2006 ANNEX XVII: Restriction conditions: 3 Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and

electronic equipment - Annex II: None of the ingredients are included.

### Regulation (EU) 2019/1148

Annex I - RESTRICTED EXPORT SUBSTANCES FOR EXPLOSIVES (upper concentration limit for a permit pursuant to Article 5(3)): None of the ingredients are included.

Annex II - EXPLOSIVES REPORTABLE FOR EXPLOSIVES: None of the ingredients are included. Regulation (EC) No 273/2004 on drug precursors: None of the ingredients are included.

Regulation (EC) No 111/2005 laying down rules for the monitoring of trade in drug precursors between the Community and third countries: None of the ingredients are included.

#### Other regulations (EU):

Hazard categories:

• P3b 'Flammable' aerosols Category 1 or 2, not containing flammable gases Category 1 or 2 nor flammable liquids Category 1

Named dangerous substances:

• Liquefied flammable gases, Category 1 or 2 (including liquefied petroleum gas) and natural gas **Directive 2004/42/EC on the limitation of emissions of volatile organic compounds:** 

Volatile organic compounds (VOC) content in percent by weight: 770.3 g/L

#### 15.1.2. National regulations

No data available

#### 15.2. Chemical Safety Assessment

A chemical safety assessment has not been carried out.

Hazard classes and hazard categories	Hazard statements	Classification procedure
aerosol dispensers and lighters (Aerosol 1)	H222; H229: Extremely flammable aerosol. Pressurised container: May burst if heated.	
Serious eye damage/eye irritation (Eye Irrit. 2)	H319: Causes serious eye irritation.	
STOT-single exposure (STOT SE 3)	H336: May cause drowsiness or dizziness.	

# 16.5. List of relevant hazard statements and/or precautionary statements from sections 2 to 15 $\,$

Hazard statements		
H225	Highly flammable liquid and vapour.	
H226	Flammable liquid and vapour.	
H280	Contains gas under pressure; may explode if heated.	
H304	May be fatal if swallowed and enters airways.	
H312	Harmful in contact with skin.	
H315	Causes skin irritation.	
H319	Causes serious eye irritation.	
H332	Harmful if inhaled.	
H335	May cause respiratory irritation.	
H336	May cause drowsiness or dizziness.	
H373	May cause damage to organs through prolonged or repeated exposure.
