- Fast polishing
- High gloss finish
- Complete haze and hologram free
- Low product consumption
- No waste of time and material
- Sicone & Silicia free
- 2 in 1
- Removes sanding makrs and plishes at the same time

GENERAL INFORMATION

TECHNO PASTE FINE is an abrasive polish for removing painting defects, such as sanding marks, car wash scratches, paint oxidation, etc. It restores shine to opaque and oxidised paint finishes simply. It's specially designed and developed for quick and clean use without water. It allows you to see the removal of the flaw imme-diately. Reduced working time. It removes scratches permanently - does not hide imperfections with cosmetic.

Technical Information

Composition: Emulsion containing inert inorganic abrasive.
Appearance: Liquid gelatinous polish
Colour: Fuchsia
Odour: Characteristic
Solubility: miscible in water
Shelf Life 18 months in closed containers in ambient temperature

APPLICATION AND USE

- Ideal to use:
  On all automotive paints including: acrylic, water based, high solid, two-component, single-component and OEM auto products. Fantastic for polishing anti-scratch ceramic paints and new generation LOW V.O.C. clear coats.
- FOR BEST RESULT:
  By hand: Spray on paint surface to be polished and remove with a non-scratch microfibre cloth. NB: For polishing without scratches always use not contaminated microfibre cloth
