CERTIFICATE OF CLEANROOM COMPLIANCE SIL TECH N

Dear Sir or Madam!

This confirmation is based on the documentation provided by our supplier and the corresponding test certificate.

The test certificate was issued by the Hygiene Institute of the Ruhr Area and confirms that the material "Sil Tech N" has been tested in accordance with DIN EN ISO 846 and shows no susceptibility to degradation by microorganisms (growth intensity 0).

Furthermore, according to the information in the test certificate, the material meets the requirements of VDI 6022 and VDI 2083 and is therefore suitable for use in cleanroom environments.
This confirmation is based on the documentation provided by our supplier and the corresponding test certificate.

Best regards,

KANDO
