Top Plast Eco black 30 sec. 50ml (Comp. B)

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1. Product identifier

Trade name/designation:

Top Plast Eco black 30 sec. 50ml (Comp. B)

Article No.:
T910201

UFI:
XH87-CWCX-2S5J-D5U9

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture:
Adhesive

*

1.3. Details of the supplier of the safety data sheet

Supplier:

KANDO Service GmbH
Hartleitnerstraße 3
4653 Eberstalzell
Austria
Telephone: +43 (0) 7241 213 79
E-mail: msds@kando.eu

1.4. Emergency telephone number

Vergiftungsinformationszentrale (VIZ), Stubenring 6, 1010 Wien, 24h: 01 406 43 43, Montag - Freitag: 8 bis 16 Uhr, Tel.: 01 406 68 98 (keine medizinische Auskunft) (Only available during office hours.)

SECTION 2: Hazards identification

*

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]

Hazard classes and hazard categories	Hazard statements	Classification procedure
Serious eye damage/eye irritation *(Eye Irrit. 2)*	H319: Causes serious eye irritation.	Calculation method.

Top Plast Eco black 30 sec. 50ml (Comp. B)

*
2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms:

GHS07
Exclamation mark

Signal word: Warning

Hazard statements for health hazards	
H319	Causes serious eye irritation.

Precautionary statements Prevention	
P264	Wash hands thoroughly after handling.
P280	Wear protective gloves/protective clothing and eye protection/face protection.

Precautionary statements Response	
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

*
2.3. Other hazards

Other adverse effects:

The product does not meet the PBT/vPvB criteria. The product does not meet the criteria regarding its endocrine disrupting properties.

SECTION 3: Composition/information on ingredients

*
3.2. Mixtures

Hazardous ingredients / Hazardous impurities / Stabilisers:

Product identifiers	Substance name Classification according to Regulation (EC) No 1272/2008 [CLP]	Concentration
CAS No.: 102-60-3 EC No.: 203-041-4 REACH No.: 01-2119552434-41	**1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol** Eye Irrit. 2 (H319) Warning **Acute Toxicity Estimate** ATE (oral) > 2,000 – 5,000 mg/kg ATE (dermal) > 2,000 mg/kg	10 – < 25 %

Full text of H- and EUH-phrases: see section 16.

SECTION 4: First aid measures

*
4.1. Description of first aid measures

General information:

Symptoms of poisoning may occur after contact, so if in doubt, consult a doctor in case of direct contact with the chemical product or persistence of indisposition, and present the safety data sheet of this product to the doctor.

Following inhalation:

This is a product that does not contain any substances classified as hazardous in contact with eyes. Fresh air supply, consult a doctor in case of complaints.

In case of skin contact:

After contact with skin, wash immediately with plenty of water and soap. BEI Skin changes (burning, redness, rash, blisters, ...) consult a doctor and show him this safety data sheet.

After eye contact:
Flush eyes with plenty of water for at least 15 minutes. If the affected person wears contact lenses, remove them as far as they do not stick to the eyes, otherwise additional injuries may occur. In all cases, a doctor must be consulted as soon as possible after washing and the safety data sheet presented to him.

Following ingestion:
Do not induce vomiting, seek medical help immediately.

Self-protection of the first aider:
First aider: Pay attention to self-protection!

* **4.2. Most important symptoms and effects, both acute and delayed**
If applicable, delayed symptoms and effects can be found in section 11. or in the routes of intake under section 4.1. Symptoms of poisoning may not appear for many hours, therefore medical monitoring for at least 48 hours after an accident.

4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

SECTION 5: Firefighting measures

* **5.1. Extinguishing media**

Suitable extinguishing media:
Product is not flammable under normal conditions of storage, handling and use. In the event of ignition due to improper handling, storage or application, fire extinguishers with polyvalent powder (ABC powder) should preferably be used. fire protection installations, fire extinguishers with polyvalent powder (ABC powder) should preferably be used.

Unsuitable extinguishing media:
None known

* **5.2. Special hazards arising from the substance or mixture**
As a result of combustion or thermal decomposition, reactive sub-products are formed that can be highly toxic and therefore pose a high and can therefore pose a high health risk.

Hazardous combustion products:
Carbon oxides, toxic gases

* **5.3. Advice for firefighters**
Depending on the size of the fire, it may be necessary to use full protective clothing and autonomous breathing apparatus may be required. There should be a minimum stock of emergency facilities or equipment (fireproof blankets, portable first aid kit, ...) in accordance with Directive 89/654/EC. first-aid kit, ...) should be available in accordance with Directive 89/654/EC.

* **5.4. Additional information**
Proceed in accordance with the internal emergency plan and the information sheets on what to do in the event of accidents and other emergencies. proceed. Keep away all sources of ignition. In case of fire, cool the storage containers and tanks of products that may catch fire or explode or explode or are at risk of BLEVE due to elevated temperatures. The leakage of products used in Avoid leakage of products used in firefighting into groundwater.

SECTION 6: Accidental release measures

* **6.1. Personal precautions, protective equipment and emergency procedures**

6.1.1. For non-emergency personnel

Personal precautions:
Isolate leaks as far as this does not pose an additional risk to the persons involved. In view of possible In view of possible contact with the spilled product, the use of personal protective equipment is mandatory (see section 8). Evacuate area and keep away persons without protective equipment.

Emergency procedures:
Leave the danger zone as far as possible, use existing emergency plans if necessary.

6.1.2. For emergency responders

Personal protection equipment:
Wear protective equipment. Keep unprotected persons away.

*
6.2. Environmental precautions

The product is not classified as dangerous for the environment. Do not allow to enter drains/surface water/ground water.

*
6.3. Methods and material for containment and cleaning up

For containment:
Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents).

Other information:
Cover a spill with a suitable (non-flammable) absorbent material (sand, diatomaceous earth, soil and other suitable absorbent materials), collect it in a well-sealed container and dispose of it in accordance with section 13. In case of leakage of large quantities of the product, inform the fire brigade and other competent bodies. After removing the product, wash contaminated area with plenty of water. Do not use solvents.

6.4. Reference to other sections

See section 7 for further information on safe handling.
For further information on personal protective equipment: see section 8.
For further information on disposal: see section 13.

SECTION 7: Handling and storage

*
7.1. Precautions for safe handling

Protective measures

Advices on safe handling:
Comply with the legislation in force on the prevention of industrial risks. Keep containers hermetically closed. Keep spilled substances and residues under control and dispose of by safe methods (section 6). Avoid leakage from the container. Places where hazardous products are handled must be kept tidy and clean.

Fire prevent measures:
Product is not flammable under normal conditions of storage, handling and use. Slow decanting is recommended to avoid the build-up of electrostatic charges that could affect flammable products.

Environmental precautions:
It is recommended to have absorbent material in the immediate vicinity of the product (see section 6.3).

Advices on general occupational hygiene

The usual precautions when handling chemicals must be observed. Wash hands before breaks and after work. Keep away from food, drink and animal feed. Remove contaminated clothing and protective equipment before entering areas where food will be served. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling.

*
7.2. Conditions for safe storage, including any incompatibilities

Technical measures and storage conditions:
Prevent access for unauthorised persons.

Requirements for storage rooms and vessels:
Do not store product in passageways and stairways. Keep only in the original container in a cool, well-ventilated place. Store at room temperature. Store in a dry place. Avoid sources of heat, radiation, static electricity and contact with food. Further information (see section 10.5).

Storage class (TRGS 510, Germany): 10 – Combustible liquids that cannot be assigned to any of the above storage classes

*
7.3. Specific end use(s)

Recommendation:
With the exception of the instructions already listed, no special recommendations are required regarding the use of this product.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1. Occupational exposure limit values

No data available

8.1.2. Biological limit values

No data available

8.1.3. DNEL-/PNEC-values

Substance name	DNEL value	① DNEL type ② Exposure route
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	8.7 mg/m³	① DNEL worker ② Long-term – inhalation, systemic effects
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	29.4 mg/m³	① DNEL worker ② Long-term – inhalation, systemic effects
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	2.5 mg/kg bw/day	① DNEL worker ② Long-term - dermal, systemic effects
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	4.2 mg/kg bw/day	① DNEL worker ② Long-term - dermal, systemic effects
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	2.5 mg/kg bw/day	① DNEL worker ② Long-term - oral, systemic effects

Substance name	PNEC Value	① PNEC type
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	0.85 mg/L	① PNEC aquatic, freshwater
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	0.085 mg/L	① PNEC aquatic, marine water
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	0.193 mg/kg	① PNEC sediment, freshwater
1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4	0.0193 mg/kg	① PNEC sediment, marine water

*

8.2. Exposure controls

8.2.1. Appropriate engineering controls

As a precautionary measure, the use of basic individual protective equipment with the appropriate CE marking is recommended. For further information on individual protective equipment (storage, use, cleaning, maintenance, protection class...), please refer to the information brochure of the respective manufacturer. The indications given in this point refer to the pure product. The protective measures for the diluted product may differ depending on the degree of dilution, use, application method, etc. To determine the obligation to install emergency showers and/or eyewash devices in the warehouses, the respective applicable regulations regarding the storage of chemical products must be taken into account. For more information, see sections 7.1 and 7.2.

8.2.2. Personal protection equipment

Eye/face protection:
obligatory, Panorama safety goggles against splashes and / or ejection, CE CAT II, EN ISO 16321-1:2022+A1:2025, EN ISO 4007:2018 Clean daily and disinfect at regular intervals according to the manufacturer's instructions. Use when there is a risk of splashing is recommended.

Skin protection:
Hand protection:
obligatory, Disposable gloves, Replace gloves at any sign of damage. Replace the gloves before any possible damage occurs. If you use the product for a long time due to professional/industrial use, then you should use gloves of type CE III or according to the standards EN 21420:2020 and EN ISO 374-1:2016+A1:2018. CE CAT I, As the product is a mixture of different materials, the resistance of the glove material cannot be calculated in advance and must be verified shortly before use.

Body protection:
Protective work clothing (e.g. safety shoes EN ISO 20345, long-sleeved work clothing). CE CAT I; Replace before signs of deterioration appear. CE III is recommended for professional/industrial users exposed to the substance for prolonged periods, in accordance with EN ISO 6529:2013, EN ISO 6530:2005, EN ISO 13688:2013, EN 464:1994 regulations.
Non-slip work footwear, CE CAT II, EN ISO 20347:2022, Replace before signs of deterioration appear. CE III is recommended for professional/industrial users exposed to the fabric for prolonged periods, in accordance with EN ISO 20345:2012 and EN 13832-1:2019 regulations.

Respiratory protection:
When workers are exposed to concentrations exceeding the exposure limits, they must wear appropriate and approved respiratory protective equipment.

Thermal hazards:
No further relevant information available.

Other protection measures:
The usual precautions when handling chemicals must be observed. Wash hands before breaks and after work. Keep away from food, drink and animal feed. Remove contaminated clothing and protective equipment before entering areas where food will be served.
Emergency shower ANSI Z358-1, ISO 3864-1:2011, ISO 3864-4:2011
Eye wash DIN 12 899, ISO 3864-1:2011, ISO 3864-4:2011

8.2.3. Environmental exposure controls
No further relevant information available.

*
8.3. Additional information
Density of volatile organic compounds: 0 kg/m³ (0 g/L)

SECTION 9: Physical and chemical properties

*
9.1. Information on basic physical and chemical properties

Appearance

Physical state: Liquid
Form: Paste
Colour: black
Odour: characteristic
flammability: Yes

Safety relevant basis data

Parameter	Value	at °C	① Method ② Remark
pH	*No data available*		
Melting point	*No data available*		
Freezing point	*No data available*		
Initial boiling point and boiling range	*No data available*		

Top Plast Eco black 30 sec. 50ml (Comp. B)

Parameter	Value	at °C	① Method ② Remark
Flash point	*not applicable*		② The product is not flammable. (>60°C)
Evaporation rate	*No data available*		
Auto-ignition temperature	*No data available*		
Upper/lower flammability or explosive limits	*No data available*		
Vapour pressure	*No data available*		
Vapour density	*No data available*		
Density	1,290 kg/m³	20 °C	
Relative density	1.29		
Bulk density	*not applicable*		
Water solubility	*No data available*		
Dynamic viscosity	50,000 mPa* s	20 °C	
Kinematic viscosity	*No data available*		
Viscosity (40°C)	> 20.5 mm²/s		

9.2. Other information
The product is not explosive.

9.2.1. Information with regard to physical hazard classes
Oxidizing liquids:
No.

SECTION 10: Stability and reactivity

* **10.1. Reactivity**
No dangerous reactions are to be expected if the technical instructions for storage of chemicals are observed.

10.2. Chemical stability
Chemically stable under conditions of storage, handling and use.

10.3. Possibility of hazardous reactions
No dangerous reactions known.

10.4. Conditions to avoid
None known.

* **10.5. Incompatible materials**
Avoid: strong acids, alkalines

* **10.6. Hazardous decomposition products**
See sections 10.3, 10.4 and 10.5 for specific degradation products. Depending on the degradation conditions, complex mixtures of chemical substances may be released during degradation: Carbon dioxide (CO2), carbon monoxide and other organic compounds.

SECTION 11: Toxicological information

* **11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4
LD_{50} oral: >2,000 – 5,000 mg/kg (Rat) OECD 401
LD_{50} dermal: >2,000 mg/kg (Rat) OECD 402

Acute oral toxicity:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Acute dermal toxicity:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Acute inhalation toxicity:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Skin corrosion/irritation:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Serious eye damage/irritation:
Causes eye irritation.

Respiratory or skin sensitisation:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Germ cell mutagenicity:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Carcinogenicity:
Based on available data, the classification criteria are not met. None of the components of this product are classified as carcinogenic by IARC, NTP.

Reproductive toxicity:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

STOT-single exposure:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

STOT-repeated exposure:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

Aspiration hazard:
Based on available data, the classification criteria are not met. It does not contain substances classified as dangerous if ingested. For further information see section 3.

* 11.2. Information on other hazards

Endocrine disrupting properties:
None of the ingredients are included. The product does not meet the criteria regarding its endocrine disrupting properties.

SECTION 12: Ecological information

* 12.1. Toxicity

1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4
LC_{50}: >100 mg/L 2 d (fish, Leuciscus idus) DIN 38412 T.15
EC_{50}: >100 mg/L 2 d (crustaceans, Daphnia magna) 92/69/EC
EC_{50}: >100 mg/L 3 d (Algae/water plant, Desmodesmus subspicatus) 84/449/EEC C.3
NOEC: ≥10 mg/L 21 d (crustaceans, Daphnia magna) OECD 211

Additional ecotoxicological information:
There are no experimental data of the mixture per se regarding ecotoxicological properties.

* 12.2. Persistence and degradability

1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4
Biodegradation: Yes, slowly

* 12.3. Bioaccumulative potential

1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4
Log K_{OW}: -2.08

* 12.4. Mobility in soil

No data available

12.5. Results of PBT and vPvB assessment

1,1',1'',1'''-ethylenedinitrilotetrapropan-2-ol CAS No.: 102-60-3 EC No.: 203-041-4
Results of PBT and vPvB assessment: —

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

* **12.6. Endocrine disrupting properties**

The product does not meet the criteria regarding its endocrine disrupting properties.

* **12.7. Other adverse effects**

Water hazard class 1: slightly hazardous to water

SECTION 13: Disposal considerations

* **13.1. Waste treatment methods**

Dispose of by the authorised waste manager in accordance with the recovery and disposal operations set out in Annex 1 and Annex 2 (Directive 2008/98/EC). According to codes 15 01 (2014/955/EC), if the container has been in direct contact with the product, treat it in the same way as the product itself, otherwise as if there were no hazardous residues. Do not allow to enter drains. See section 6.2. In accordance with Annex II of Regulation (EC) No 1907/2006 (REACH), the Community or national provisions regarding waste recovery shall be complied with. Community legislation: Directive 2008/98/EC, 2014/955/EC, Regulation (EU) No 1357/2014. National regulations: Act on the Reorganisation of the Recycling and Waste Management Law. Of 24 February 2012.

13.1.1. Product/Packaging disposal

Waste codes/waste designations according to EWC/AVV

Waste code product

08 04 09 *	Waste adhesives and sealants containing organic solvents or other dangerous substances

**: Evidence for disposal must be provided.*

SECTION 14: Transport information

Land transport (ADR/RID)	**Inland waterway craft (ADN)**	**Sea transport (IMDG)**	**Air transport (ICAO-TI / IATA-DGR)**
14.1. UN number or ID number			
No dangerous good in sense of these transport regulations.	No dangerous good in sense of these transport regulations.	No dangerous good in sense of these transport regulations.	No dangerous good in sense of these transport regulations.
14.2. UN proper shipping name			
No dangerous good in sense of these transport regulations.	No dangerous good in sense of these transport regulations.	No dangerous good in sense of these transport regulations.	No dangerous good in sense of these transport regulations.

14.7. Maritime transport in bulk according to IMO instruments

not applicable

SECTION 15: Regulatory information

* **15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

15.1.1. EU legislation

Authorisations:

Regulation (EU) No 528/2012 (Biocidal products) calcium oxide - PT: (2, 3)
Regulation (EC) No. 1907/2006 (REACH), (EU) 2020/878, Annex XVII (restrictions) None of the ingredients are included.
Does not contain a REACH candidate substance. Does not contain a substance listed in REACH Annex XIV.
Ozone Regulation (2024/590) None of the ingredients are included.
Regulation (EC) 2019/1021 [POP Regulation] None of the ingredients are included.
Regulation (EU) No 649/2012 (PIC) None of the ingredients are included.
Seveso category: not relevant
Restrictions on the marketing and use of certain substances and hazardous mixtures (Annex XVII of REACH, etc.):
Must not be used:
—in decorative items intended to produce light or colour effects (through phase change), e.g. in mood lamps and ashtrays;
—in novelty toys;
—in games for one or more players or in articles intended for use as such, including for decorative purposes.
Occupational exposure to respirable crystalline silica must be controlled in accordance with Directive (EU) 2019/130.
Specific injunctions concerning personal and environmental protection: It is recommended that the information in this safety data sheet be used as input to data collected in a risk assessment of local conditions in order to take the necessary measures to prevent hazards for the management, use, storage and disposal of this product.

Directive 2004/42/EC on the limitation of emissions of volatile organic compounds:

Volatile organic compound (VOC) content: 0.3 Vol-%

15.1.2. National regulations

No data available

15.2. Chemical Safety Assessment

A chemical safety assessment has not been carried out.

SECTION 16: Other information

* **16.1. Indication of changes**

1.3.	Details of the supplier of the safety data sheet
2.1.	Classification of the substance or mixture
