Confirmation – HACCP

BIOTEX LIQUID

Dear Sir/Madam,

in consultation with the supplier, we hereby confirm that when used as specified in the technical data sheet, **Biotex** is suitable for use in food-processing areas and can be used within the framework of HACCP programs. This is contingent upon surfaces that come into direct contact with food being thoroughly rinsed with drinking water after application to remove any product residue.

For further request we remain at your disposal.

Best regards

KANDO
