Application and Use

- 1. Clean the surface thoroughly.
- 2. Fast Fix Primer LIQUID should be applied with the brush included on the cap and the surface should be wetted with it.
- 3. ATTENTION: Before the adhesive is applied, the solvent must be completely evaporated!
- 4. ATTENTION: There should not be more than an hour between applying the primer and applying the adhesive.
- 5. ATTENTION: If only one part to be joined is made of non-polar plastic, only this must be treated with primer. In this case, the adhesive should be applied to the untreated surface.
- 6. Load the bond only after the final strength has been reached.
