MULTI TECH NANO

**WATER RESISTANT,
ANTI-CORROSIVE DE-SEIZER,
LUBRICANT AND CLEANER**

- Works very quickly
- Wets, penetrates, cleans and lubricates in a single step
- Performs difficult de-seizing without damaging threading
- Provides a water-repellent and phosphate coating
- Does not contain silicone
- Improved anti-rust, anti-corrosive and anti-wear properties
- 3 times better than PTFE

General Information

MULTI TECH NANO is a super-penetrating de-seizer and rust reducer, with rapid phosphate coating action from new nanoparticle technologies. It´s special formulation produces a phospahte coating on parts and lubricates over several months.
MULTI TECH NANO reduces maintenance costs and gives a longer life to the lubricated parts.
MULTI TECH NANO is your product for unblocking heavily seized assemblies and
provides long lasting protection on any environmental humidity levels.

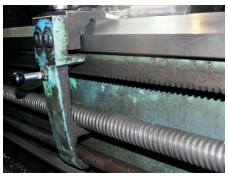

Technical Information

Physical state: Aerosol
Colour: colourless
Viscosity (at 40°C): 220 cP
Relative density: 0.85 – 0.87
Flash Point: > 60 °C
4 balls EP-test: (ASTMD2596): 9000N
EMCOR corrosion (NFT 60 135): 0-0
Operating temperature range: -30°C to +300°C
Solubility in water: insoluble
Flammability: extremely flammable
Store in closed original packaging away from sources of ignition and in a well-ventilated area.

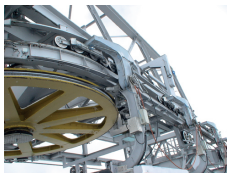

Application and Use

- MULTI TECH NANO is recommended for use in: Marine environments, cement works, petrochemicals, agriculture, military, aerospace, etc.
- MULTI TECH NANO is particularly suited for unblocking seized assemblies: bolts, nuts, srews, threads, waterworks rods, pulleys and mountings requiring usage of an effective de-seizer.
- MULTI TECH NANO produces a phosphate coating om parts, and lubricates very well over several months.
- MULTI TECH NANO is perfectly water-resistant, it provides effective and long-lasting protection regardless of environmental humidity levels surrounding treated parts.
- Inventory is reduced, life of equipment is increased and maintenance costs reduced.
