	(Contd. of page 1)
Hazard stat	ements
H302 Harm	ful if swallowed.
H314 Cause	es severe skin burns and eye damage.
H335 May 6	cause respiratory irritation.
Precaution	ary statements
P260	Do not breathe dusts or mists.
P303+P361	+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351	+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
2.3 Other h	azards
Results of F	BT and vPvB assessment
DDT. Not a	

· **PBT:** Not applicable.

· vPvB: Not applicable.

# **SECTION 3: Composition/information on ingredients**

# · 3.2 Chemical characterisation: Mixtures

· Description:

*Cleansing agent Mixture consisting of the following components.* 

· Dangerous compone	ents:	
CAS: 7647-01-0	hydrogen chloride	25-<50%
EINECS: 231-595-7	🤣 Met. Corr.1, H290; Skin Corr. 1A, H314; 🚸 STOT SE 3, H335	
CAS: 1341-49-7	ammonium hydrogendifluoride	2.5-<10%
EINECS: 215-676-4	🛞 Acute Tox. 3, H301; 🚸 Skin Corr. 1B, H314	
CAS: 69011-36-5	Isotridecanol, ethoxylated (>5-20 EO)	2.5-<10%
	📀 Eye Dam. 1, H318; 🚯 Acute Tox. 4, H302	
CAS: 7697-37-2	nitric acid	< 2.0%
EINECS: 231-714-2	🚸 Ox. Liq. 2, H272; 🚸 Skin Corr. 1A, H314	
CAS: 12125-01-8	ammonium fluoride	< 2.0%
EINECS: 235-185-9	♦ Acute Tox. 3, H301; Acute Tox. 3, H311; Acute Tox. 3, H331	
· Ingredients conform	89/542/EG	
non-ionic surfactants	5	<5%
	in For the wording of the listed hazand physics refer to section 16	

• Additional information For the wording of the listed hazard phrases refer to section 16.

# **SECTION 4: First aid measures**

#### • 4.1 Description of first aid measures

- · General information
- Take affected persons into the open air.

Instantly remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

· After inhalation In case of unconsciousness bring patient into stable side position for transport.

· After skin contact

Instantly wash with water and soap and rinse thoroughly.

Instantly rinse with water.

· After eye contact Rinse opened eye for several minutes under running water. Then consult doctor.

· After swallowing

Instantly call for doctor.

(Contd. on page 3)

GB

Printing date 24.07.2017

Revision: 02.02.2015

(Contd. of page 2)

Trade name: WHEEL CLEANER HD

- Drink copious amounts of water and provide fresh air. Instantly call for doctor. • **4.2 Most important symptoms and effects, both acute and delayed** Breathing difficulty Headache
- Dazed
- Coughing
- **4.3 Indication of any immediate medical attention and special treatment needed** *No further relevant information available.*

## **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
- · Suitable extinguishing agents Water
- · 5.2 Special hazards arising from the substance or mixture
- Formation of poisonous gases during heating or in fires.
- · 5.3 Advice for firefighters
- · Protective equipment: Put on breathing apparatus.

## SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures
  Particular danger of slipping on leaked/spilled product.
  Ensure adequate ventilation
  Put on breathing apparatus.
  Wear protective equipment. Keep unprotected persons away.
  6.2 Environmental precautions: Do not allow to enter drainage system, surface or ground water.
  6.3 Methods and material for containment and cleaning up:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
  Use neutralising agent.
  Dispose of contaminated material as waste according to item 13.
  Ensure adequate ventilation.
  6.4 Reference to other sections
  See Section 7 for information on safe handling
  See Section 8 for information on personal protection equipment.
  - See Section 13 for information on disposal.

## **SECTION 7: Handling and storage**

- · 7.1 Precautions for safe handling
- Work only in fume cupboard. When diluting, always stir the product into standing water. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
- *Information about protection against explosions and fires: The product is not flammable Keep breathing equipment ready.*
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and containers: Store only in the original container.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions:

Store in a locked cabinet or with access restricted to technical experts or their assistants. Protect from frost.

Store container in fume cupboard.

Store in a locked cabinet and out of the reach of children.

(Contd. on page 4)

GB

Printing date 24.07.2017

Version number 12

Revision: 02.02.2015

Trade name: WHEEL CLEANER HD

Keep container tightly sealed.

· 7.3 Specific end use(s) No further relevant information available.

## **SECTION 8: Exposure controls/personal protection**

- Additional information about design of technical systems: No further data; see item 7.
- · 8.1 Control parameters
- · Components with limit values that require monitoring at the workplace:

7647-01-0 hydrogen chloride (10-<25%)

WEL Short-term value: 8 mg/m<sup>3</sup>, 5 ppm

Long-term value: 2 mg/m<sup>3</sup>, 1 ppm

• Additional information: The lists that were valid during the compilation were used as basis.

- · 8.2 Exposure controls
- · Personal protective equipment
- · General protective and hygienic measures
- Keep away from foodstuffs, beverages and food.

Take off immediately all contaminated clothing

Wash hands during breaks and at the end of the work.

Avoid contact with the eyes.

Avoid contact with the eyes and skin.

· Breathing equipment:

Not necessary if room is well-ventilated.

Only during spraying without adequate removal by suction.

Use breathing protection only when aerosol or mist is formed.

Use a breathing protection if high concentrations are present.

In case of brief exposure or low pollution use breathing filter apparatus. In case of intensive or longer exposure use breathing apparatus that is independent of circulating air.

· Protection of hands:

Protective gloves.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### · Penetration time of glove material

> 0,5 mm. / 240 min.

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection: Tightly sealed safety glasses.

## **SECTION 9:** Physical and chemical properties

- 9.1 Information on basic physical and chemical properties
  General Information
  Appearance:

  Form:
  Fluid
  Colour:
- Odour:Characteristic• Odour threshold:Not determined.

· 9.2 Other information	No further relevant information available.	

## SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions

When diluting, always add acid to water, never vice versa Corrosive action on metals

- 10.4 Conditions to avoid Avoid creating mist or damp in rooms where no ventilation is present
- 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products: No dangerous decomposition products known

#### **SECTION 11: Toxicological information**

- · 11.1 Information on toxicological effects
- · Acute toxicity
- Harmful if swallowed.

# · LD/LC50 values that are relevant for classification:

1341-49-7 ammonium hydrogendifluoride

# Oral LD50 130 mg/kg (rat)

#### Trade name: WHEEL CLEANER HD

(Contd. of page 6)

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

· 12.5 Results of PBT and vPvB assessment

• *PBT:* Not applicable.

• **vPvB:** Not applicable.

 $\cdot$  12.6 Other adverse effects No further relevant information available.

# SECTION 13: Disposal considerations

- · 13.1 Waste treatment methods
- · Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

· Uncleaned packagings:

· Recommendation: Disposal must be made according to official regulations.
