ELECTRO CLEANER N

NON-FLAMMABLE SOLVENT FOR ELECTRIC AND ELECTROMECHANICAL CLEANING

- can be used under voltage.
- non-flammable and safe to use.
- cleans, degreases and removes oxidation from all electrical and eletronic equipment.
- quick-drying formulation.

GENERAL INFORMATION

ELECTRO CLEANER N cleans, degreases and removes oxidation from all electrical and electronic equipment, such as circuit boards, servos, remote switches, terminal boards, printed circuits, integrated circuits etc. ELECTRO CLEANER N dielectric property enables it to be used on live circuitry, offering considerable advantages in practical convenience, functionality and safety. The quick-drying formulation makes it ideal whenever total cleaning is required, without protective or lubricant components.

ELECTRO CLEANER N is ideal for removing deoxidising solder paste after the soldering of components on printed circuits. Perfect for the maintenance of continuous wire welders, for both mechanical and electronics applications.
ELECTRO CLEANER N degreases and dissolves carbon deposits on electrical contacts, restoring the correct voltage.

TECHNICAL INFORMATION

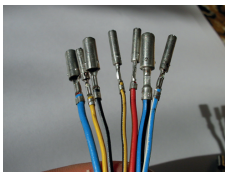

Form: aerosol
Colour: yellowish
Odour: characteristic
Relative density: 0,94 Kg/l.

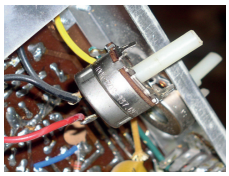

Total solids (250°C): 83,75%
VOC (Directive 2010/75/EC): 3,25% - 30,55 g/l
VOC (volatile carbon): 1,54% - 14,45 g/l
Shelf life: 12 months in a dry and frost-proof area.

APPLICATION AND USE

- Spray generously using the nozzle extension tube, if necessary using compressed air to blow off any excess product. For particularly dirty circuit boards, with accumulated deposits, repeat the operation if necessary.
- ATTENTION: check the compatibility with plastics, consult the compatibility table attached to the Product Data Sheet.
- Ideal for: Electronics, electrotechnical and electromechanical equipment, radio TV maintenance technicians, office machine maintenance technicians, household electrical appliance repairs, repairs of billiards, pinball and video games
