

SCF

UNIVERSAL CONCENTRATED CLEANER

- possible to use on all washable surfaces including stainless steel
- removes calcic sediments, calc and another sediments
- pleasant smell
- economic - water-soluble according to use 1:4 to 1:12
- does not harm faucets and other sensitive surfaces
- easy and comfortable to use

SCALEX FRESH

GENERAL INFORMATION

SCALEX FRESH is a special acid cleanser developed for use on sensitive surfaces such as stainless steel, chrome, chromate surfaces, artificial stone, glass, plexiglass, thermoplastic. It is possible to use it on all washable surface. Next it is used on other washable surfaces such as ceramic and stone tiles, pavings, enamel

surfaces. It perfectly removes calc, sediments, rust stains and other sediments forming in showers, toilets, urinals, pools, spas. It can be widespread used in catering industry and kitchens (sinks and dishwashers, floors, desktops, stainless kitchen equipment). In industrial production, building industry, transport and agriculture can be used as well.

TECHNICAL INFORMATION

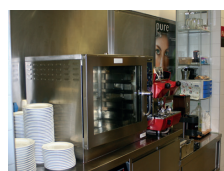

Form: fluid
 Colour: colourless
 Odour: odourless
 pH-value: acidic
 Auto-ignition temperature: 1010°C

Vapour pressure (at 20°C): 23 hPa
 Density (at 20°C): 1,4 g/cm³
 Solubility in water: fully miscible
 Organic solvents: 0,0%

APPLICATION AND USE

- Dilute SCALEX FRESH product as needed (1:4 to 1:12) and apply on a cleaning surface by using mop, brush or plastic spray. It is effective as well to dip the cleaning part into the bath with SCALEX FRESH product.
- Let the product work for necessary time and then wash the surface carefully with water. By strong layer of sediments apply the product repeatedly. In hard to reach places you can use soft brush to finish the cleaning.
- For long-term preservation of the new appearance of metal surfaces use on the cleaned surface the INOXIN product, which works preventively against sedimenting the calc.
